

Originalarbeiten in „Peer-reviewed“ Zeitschriften

Impaktfaktoren Stand 2011:

1. Originalarbeiten (75):

Summe Impaktfaktoren Originalarbeiten: **220,01**

1. Scholz AO, Gehrman S, Glombitza M, Kaufmann RA, Bostelmann R, **Flohe S**, Windolf J. Reconstruction of septic diaphyseal bone defects with the induced membrane technique. *Injury* 2015 Oct;46 Suppl 4:S121-4. **(IF: 1,98)**
2. Hornstein T, Lehmann S, Philipp D, Detmer S, Hoffmann M, Peter C, Wesselborg S, Unfried K, Windolf J, **Flohé S**, Paunel-Görgülü A. Staurosporine resistance in inflammatory neutrophils is associated with the inhibition of caspase- and proteasome-mediated Mcl-1 degradation. *J Leukoc Biol.* 2015 Aug 26 **(IF: 4,99)**
3. Weuster M, Mommsen P, Pfeifer R, Mohr J, Ruchholtz S, **Flohé S**, Fröhlich M, Keibl C, Seekamp A, van Griensven M, Witte I. Induced Hypothermia Does Not Harm Hemodynamics after Polytrauma: A Porcine Model. *Mediators Inflamm.* 2015;2015:829195. doi: 10.1155/2015/829195. Epub 2015 Jun 11. **(IF: 3,26)**
4. Matthes G, Trentzsch H, Wöfl CG, Paffrath T, **Flohe S**, Schweigkofler U, Ekkernkamp A, Schulz-Drost S; Sektion Notfallmedizin, Intensivmedizin und Schwerverletztenversorgung (NIS) der Deutschen Gesellschaft für Unfallchirurgie e. V. [Essential measures for prehospital treatment of severely injured patients: The trauma care bundle]. *Unfallchirurg.* 2015 Aug;118(8):652-6. **(IF: 0,61)**
5. Münzberg M, Mutschler M, Paffrath T, Trentzsch H, Wafaisade A, Walcher F, Raum M, **Flohé S**, Wöfl C. Level of Evidence Analysis for the Latest German National Guideline on Treatment of Patients with Severe and Multiple Injuries and ATLS. *World J Surg.* 2015 Aug;39(8):2061-7. **(IF: 2,36)**
6. Reith G, Wyen H, Wafaisade A, Paffrath T, **Flohé S**, Bouillon B, Maegele M, Probst C. Current standard of care for initial management of open fractures in emergency departments : A nationwide survey in German trauma center. *Unfallchirurg.* 2015 Jan 28. [Epub ahead of print] **(IF: 0,61)**
7. Windolf CD, Lögters T, Scholz M, Windolf J, **Flohé S**. Lysostaphin-coated titan-implants preventing localized osteitis by *Staphylococcus aureus* in a mouse model. *PLoS One.* 2014 Dec 23;9(12):e115940 **(IF: 4,09)**
8. Paffrath T, Lefering R, **Flohé S**; TraumaRegister DGU. How to define severely injured patients? - An Injury Severity Score (ISS) based approach alone is not sufficient. *Injury.* 2014 Oct;45 Suppl 3:S64-9. **(IF: 1,98)**
9. Leenen M, Scholz A, Lefering R, **Flohé S**; TraumaRegister DGU. Limited volume resuscitation in hypotensive elderly multiple trauma is safe and prevents early clinical dilutive coagulopathy -- a matched-pair analysis from TraumaRegister DGU®. *Injury.* 2014 Oct;45 Suppl 3:S59-63. **(IF: 1,98)**

10. Wafaisade A, Wyen H, Mutschler M, Lendemans S, Bouillon B, **Flohe S**, Paffrath T, Maegele M, Tjardes T, Probst C; Sektion NIS der DGU. Current practice in coagulation and transfusion therapy in multiple trauma patients : A German nation-wide online survey.]Unfallchirurg. 2014 Jun 5. [Epub ahead of print]. **(IF: 0,61)**
11. Fröhlich M, Hildebrand F, Weuster M, Mommsen P, Mohr J, Witte I, Raeven P, Ruchholtz S, **Flohé S**, van Griensven M, Pape HC, Pfeifer R. Induced hypothermia reduces the hepatic inflammatory response in a swine multiple trauma model. J Trauma Acute Care Surg. 2014 Jun;76(6):1425-32. **(IF: 2,48)**
12. Windolf CD, Meng W, Lögters TT, Mackenzie CR, Windolf J, **Flohé S**. Implant-associated localized osteitis in murine femur fracture by biofilm forming Staphylococcus aureus: A novel experimental model. J Orthop Res.2013 31(12):2013-20. **(IF: 3,11)**
13. Mohr J, Ruchholtz S P, Hildebrand F, **Flohé S**, Frink M, Witte I, Fröhlich M, van Griensven M, Keibl C, Mommsen P. Induced hypothermia does not impair coagulation system in a swine multiple trauma model. J Trauma Acute Care Surg 2013;74:1014-20. **(IF: 2,48)**
14. Sellman T, Miersch D, Kienbaum A, **Flohé S**, Schneppendahl J, Lefering R, DGU Traumaregister. The impact of arterial hypertension on polytrauma and traumatic brain injury. Deutsch. Ärzteblatt 2012;849-56 **(IF: 2,9)**
15. Burkhardt M, Nienaber U, Pizanis A, Maegele M, Culemann U, Bouillon B, **Flohé S**, Pohlemann T, Paffrath T, Dgu T. Acute management and outcome of multiple trauma patients with pelvic disruptions. Crit Care 2012 Aug 22;16(4):R163. **(IF: 4,61)**
16. Meng W, Paunel-Görgülü A, **Flohé S**, Hoffmann A, Witte I, Mackenzie C, Baldus SE, Windolf J, Lögters TT. Depletion of neutrophil extracellular traps in vivo results in hypersusceptibility to polymicrobial sepsis in mice. Crit Care 2012 Jul 26;16(4):R137. **(IF: 4,61)**
17. Hildebrand F, Weuster M Mommsen P; Mohr J; Fröhlich M; Witte I; Keibl C; Ruchholtz S; Seekamp A; Pape H-C; **Flohé S**; Griensven van M. A combined trauma model of chest and abdominal trauma with hemorrhagic shock- description of a new model. Shock 2012; 38: 664-70 **(IF: 2.85)**
18. Hildebrand F, **Flohé S**, Leenen L, van Griensven M, Frink M. Posttraumatic immune response and its modulation. Mediator Inflamm. 2012;731563. Epub 2012 Mar 27 **(IF: 3.26)**
19. Wafaisade A, Lefering R, Maegele M, Lendemans S, **Flohé S**, Hussmann B, Defosse JM, Probst C, Paffrath T, Bouillon B; Trauma Registry of DGU. Coagulation management of bleeding trauma patients is changing in German trauma centers: an analysis from the trauma registry of the German Society for Trauma Surgery. J Trauma Acute Care Surg 2012 Apr;72(4):936-42. **(IF: 2,48)**

20. Meng W, Paunel-Görgülü A, **Flohé S**, Witte I, Schädel-Höpfner M, Windolf J, Lögters TT. Deoxyribonuclease is a potential counter regulator of aberrant neutrophil extracellular traps formation after major trauma. *Mediator Inflamm* 2012;149560. Epub 2012 Jan 23. **(IF: 3,26)**
21. Paunel-Görgülü A, Kirichevska T, Lögters T, Windolf J, **Flohé S**. Molecular mechanisms underlying delayed apoptosis in neutrophils from multiple trauma patients with and without sepsis. *Mol Med* 2012 May 9;18(1):325-35. **(IF: 3,76)**
22. Kühn MC, Willenberg HS, Schott M, Papewalis C, Stumpf U, **Flohé S**, Scherbaum WA, Schinner S. Adipocyte-secreted factors increase osteoblast proliferation and the OPG/RANKL ratio to influence osteoclast formation. *Mol Cell Endocrinol* 2012 Feb 26;349(2):180-8 **(IF: 4,19)**
